The Republican Meeting. To-Night We again invite the attention of our Republi can friends to the District meetings to be held this evening. There surely can be no necessity for any lengthend remarks in suggesting the propriety of a full attendance at these meetings.-We are on the eve of another political struggle by which it is to be tested whether Republican principles or those advocated by the Sham-Democracy are to prevail in this State. And unless the present signs fail, we are to meet again be fore the people, the old Lunatic Asylum and clee tion Frands section of the Democracy, striving for power. This makes it all-important that good men be chosen to go to Madison to select the standard bearers of the Republican party in the contest; and the people by attending the primary meetings, can send such men. Will you do it, Republican friends?

Demogratic State Consention. This body met at Madison yesterday, at 12 M. and after perfecting an organizization, adjourned to 8 P. M. In the evening, the Convention proceeded to nominate a candidate for Governor; on the third ballot Hon. JAMES B. CROSS, of this city, received 89 out of 155 votes east, and was declared nominated. The Convention then ad journed till to-day.

DZLEGATES TO THE REPUBLICAN STATE CONvention.—The delegates to the Republican State Convention from the Assembly district composed of the counties of Pierce, Dann, Clarke, Eau Claire and Chippewa, are W. P. BARTLETT of Eau Claire, and E B. LIVINGSTON of Dunn. We understand that they favor the nomination of Mr. A. W. RANDALL for Governor.

CARDID.—The American of yesterday, in alluding to the State Convention of its pary the "democratic" —which met yesterday, says; The Milwankee & Mississippi Railrond was doing a capital basiness yeaterday. Car loads of corruption were dumped at Madison.

The St. Louis Republican of Tuesday, arranges

a majority of fourteen for Stewart, with two counties, Ripley and Danklin, to hear from. It has "information" also that Nodway has given Stewart 240 majority instead of 125 as previously re-

The St. Louis Democrat of the 26th says:

The county of Atchison, it will be remembered, is far up in the north-western comer of the state, and its very remoteness no doubt suggested the practicability of tampering with the returns from thence. The county was at first toported to ut, and so reported by persons direct from the county seat, as having given Stowart an mejority of thirty votes. As such, we get it down in our tables, and so did the rest of our cotemporaries. The long time, however, which clapsed below appealensive that all was not right, and whom the "official returns" as they are styled, did come, showing a majority of forty-five for Stowart, we were satisfied that the vote had been watered. It is now published by the opposition press as "official," at Stewart 170, Rollins 125. On yesterday however, we received a letter from an old correspodent, a resident of the county, enclosing us the vote taken from the poll books, and our readers may be somewhat, surprised to learn that it stands there recorded just as we originally published the that is Stewart 148, Rol lins 113, or only 30 majority for the former. It is needless to add words to so patent an evidence of fraud.

RAILROAD TONNEL FALLES .- The Baltimo and Ohio Road has met with a serious drawback in the falling of the Broad Tree Tunnel, three quarters of a mile long. One man was killed and fifteen were injured by the felling of the tunnel roof. It will require from six to twelve months to complete the re-arching. Loss to the company \$140,000. A zig-zag track, two and half miles in length at a grade of 500 feet to the mile, has been built over the mountain,

and the trains climb this dangerous track at the rate of eight miles per hour. THE SAULT CASAL.—The breach in the Canal, at the Sault Ste. Marie, has been fully repaired, and vessels and steamers pass and repass with-

out difficulty, or delay.

La Crosse R. R. PROGRESS OF THE TRACE.—They are constantly putting iron across the river at this place, and
will probably commence laying track west of the

Tax Bander.—The pier of the Bridge is now raised ten or twelve feet above the water; and they are putting it ahead as fast as possible. The other mesonry is nearly completed, so that there will be no delay in raising the timber work of the Bridge on account of it. There are a large number of workmen framing the timber; and it is the intention to have it all framed and ready for raising as soon as the pier shall be done. We think now-there is a prospect that the cars will run over the bridge as soon as the middle of October.—Kilbourn City Mirror.

That eminently humane and Christian paper the Milwaukee News, charges the Republican party of this State with deliberately undertaking to elevate the negro race," and thus emphat

ically lays down the law on the subject :

The attempt to elevate a black and debased mace—a race that at home is barbarian and even cannibal—which is being made by the Republican party of Wisconsin, is in striking opposition to the contract when the property of the property of the contract of the striking opposition when some contract the contract of the striking of the contract of the striking of the contract of the striking opposition that the contract of the striking opposition that the contract of the striking opposition that the striking opposition the striking opposition that the striking opposition the striking opposition that the striking opposition that the striking opposition the striking opposition that the striking opposition that the striking opposition the striking opposition that the striking opposition that the striking opposition that the st ion sense and Christian duty.

It is impossible to deny that this benevolen and enlightened sentiment is a legitimate deduction from the Dred Scott decision. It is but an other form of the remarkable dictum that the blacks have no rights which the white men are bound to respect. Hence it follows, of course that the blacks may be made Slaves of, and treat ed as beasts of burden, or any other "chattels," and that "common sense and Christian duty" are alike opposed to every attempt at bettering their souls. Such is the teaching of Sham De. morracy, in obedience to the orders of the Sla very Propagandists. It will take some time and labor to commend these novel precepts of "com mon sense and Christian daty" to the hearts and consciences of the people of the Free States.

Land Sales at La Pointe,-Complaint of Unfair Dealing.

The Bayfield Mercury of August 22d contain a long article, making very serious complaints against John W. Hunr, Assistant Secretary of State, WM. R. SMITH, Attorney General, and CHAS. KENHU, State Treasurer, in regard to their proceedings at the sale of School Lands in La Pointe County, on the 20th instant. It is charged that preference was shown to outside bidders over the actual settlets on those lands; that difficulties were made about allowing boun fide are emption claims; that the Auctioneer wno conducted the sale, was a party to the outside arrangement and favored the "Madison Land Sharks" in the bids, &c. The Mercury further alleges that the Commissioners exacted illegal and exorbitant lees for their services, and it specifies

as follows:
All the lands were appraised at \$1,25 per acre, and purchasers were required to pay on the day of sale ten per cent of the purchase money and interest upon the deferred payment. to the first of January next at seven per cent, per annum, thus making the amount to be paid n that day as follows: Ten per cent. on \$216, \$21,60

4,98

Int. on bal, of \$105,40 from Aug. 20, to Jan. 1, at 7 per cent

The Statutes of the State provide that the ex-The Statutes of the State provine that the expenses of the sale shall be paid from the proceeds, and no authority is given the Commissioners to receive fees from purchasers. Upon making the puyments there was required from each purchaser of 160 acres \$31,96, thus placing in the pockets of those concerned in these operations \$7,43 on the sale of each quarter section. We copy the *items* from a bill before us: Ten per cent. on \$210 Int. to Jan. 1, 1858,

Total.

\$35,96 At this rate, the Commissioners must have made a good thing of it, and their aggregate of "tees" for the year will count up large. The Mercury intimates that the people of La Pointe will not submit to be wronged in the premises, but are determined to have the sales thoroughly investigated before "another and more honest tribunal."

A HARD HIT .-- The Wankesha Co. Democrat does not feel particularly pleased at the result of the delegate selections in that county, and closes its notice of the Convention with the following complimentary allusion:

citement about the St. Nicholas.

About 3 o'clock yesterday afternoon, private dispatches were received in this city, announcing the suspension of the New York Beauch of the Obio Life Insurance and Trust Company Bank. This news took everybody by surprise. It acted that as a clap of thunder in a clear sky. The Trust is Company had been regarded as among the safest and most substantial banking institutions in the country. Its business here had been carefully managed, and yielded a fair profit. On the 4th of July a semi-annual cash dividend was declared of July a semi-annual cash dividend was declared of four and a half per cent. On Transday last the stock sold at the New York Stock Exchange at within a fraction of par, indicating confidence there. In addition to all this the Western business of the Bank continued large and profitable. Its discount lines have not been increased, while its deposits were not diminished. The general business of the country is in a good condition, presenting, both present and prospections. Thio Life Insurance and Trust Company Bank

Through public or private channels, we have no advices from New York, except the we have no adversa non-new rous, except the bare announcement of the suspension. The doors were closed resterday about 2 o'clock, and the fact was officially apnounced to the Directors here by despatch from Mr. Stetson, President of the Bank, who left this city on Saturday morning, in obedience to an urgent despatch from The total foreign born population of the State New York, and reached the latter city on Standay

This is all that is positively known. But we may, we think, safely venture the opinion that the difficulty has not resulted from any legitimate business transactions here or at New York.—

is that the cause of this disaster is not such that the likely to affect directly, other banking institutions. If it were brought about by compressed disasters, by which mercantile credit is generally impared, we might tear that the avil would be wide spread. But in the present state of affairs this is not to be apprehended. The of affairs this is not to be apprehended. The Western country, fortunately, was never in a better condition than at the present time. The land is overronning with agricultural wealth—Merchants stund firm, with ample resources to meet their liabilities. Gredits have been largely currailed within the last twelve months. Banks have keep close to shore, and here is a marked from the country for the state of safety.

At Benarcs and Aliahabad there had been audicies, and many Europeans have bean killed; out those places still remain in our and Europian recommendations.

have kept close to shore, and have but little to fear. Expansion, which is always dangerous, has been avoided, and the aggregate circulation of Western Banks is at this time greatly belo an average. These facts will tend to sustain an average. These lacts will tend to sustain confidence, under the pressure which an occurrence like that we are noticing is calculated to produce. It will be proper, therefore, in considering this disaster, to trace it to the true cause, and not connect it with the general legitimate business operations of the country.

Licutenant Hood, Company G. 2d Carairy, re-Intertenant rood, Company 6, 32 Cavary, reports on engagement on the 20th of July, at the head of Doril River, with forty-five Indians.

He had twenty-four men on a scouting party; was informed at Fort Mason, from which he was detached, that a band of Lipans had Johtsined

detached, that a band of Lipans had Jobtained permission to bring in thir families, and if they encountered any of the scouting parties; they were to hoist a white flag.

On the 20th he discovered ten Indians, who raised a white flag. He kept seven men with his pack mules, and started towards them, and when he had approached within about thirty yards, they immediately lowered their flag, and some thirty Indians spring up and commenced firing rifles and arrows.

These shots were for with returned, and a cloce combat ensued. Lieut, Hood's men were armed with yagers and one revolver each. The melec became so close that one of the men, after firing

ocume so close that one of the men, after firing his gun, hung it over the pommel of his saddle, and an Indian took it off! He killed nine Indians and wounded ten or He shied into inmais and wounded to not relive. Lost two men, one killed and one missing; one dangerously wounded; himself and three men were wounded; and one horse killed and three wounded.

Lieut, Hood had seventeen fighting men in the

engagement. His guides counted forty-five In-dians, and stated them to be Lipans and Caman-

STEELED RAILS.—The Rensselaer Iron Works, of Troy, are making rails with a thickness of half an inch of cars-tseed on the head. The steel is old scrap cast-steel, worked twice before welding in the rail pile. After going in the pile, the rail is worked and finished the same as ordinary rails. Some of these steeled head rails were put down some time ago, in one side of the track near the Albany engine house of the New York Central road. Mr. Gray, Chief Engineer, says they wore out six times the amount of common rails. One hundred tons are now making for the Galena and Chiengo road, to be put down at switches, The rails of this kind already used show no signs of the steelsplitting off. The cost is twenty dollars a ton over the cost of ordinary rails. STEELED RAILS.—The Rensselner Iron Works,

INTERESTING TO DENTISTS AND THEIR PATIENTS. INTERESTING TO DESTIFF AND THEIR PATIENTS.

—D. J. B. Francis, of Philadelphia, has invented what he calls a galvanic forceps, which is intended as a relief to the pain of extraction teeth. It is a combination of the ordinary forceps, with a galvanic arrangement attached, whereby the nerve of the tooth may be charged with the galvanic influence, and its sensibility suspended. In this condition the extraction will be without the pain appells arrangements that the pain area. usually accompanying the drawing of a tooth in a high state of influention.

We find the following numbral paragraph in one of our exchanges, under the caption of "Boys out at right:"—Night running is ruinous to the morals of toys in all instances. They acquire under the cover of night on unnealthy state of mind, bad, valgar and profare language, a lawless and riotous bearing. Indeed, it is in the street after nightful that boys principally acquire the education of the bad, and capacity for becomming rowdy, dissolute men.
